

## CASE STUDY:

### Cubed Creative – Long-Lasting Wall Art That Works Every Time

**cubed  
creative**

Cubed Creative delivers a complete design and print service for large format digital printing, vinyl signage, pop-up displays, and more. The company prides itself on combining extensive knowledge, traditional skills, and modern technology to produce cost-effective solutions.

Cubed Creative has recently completed multiple school interiors projects, using colourful and instructive vinyl wall art graphics. These have enlivened and enhanced the learning atmosphere for pupils and educators alike.

But the requirements were challenging. The material used needed to be durable and long-lasting, in environments where walls come in for more than their fair share of punishment. It also had to be explicitly suited to application onto painted walls – often a tricky surface to deal with.

Cubed Creative's team chose All Print Supplies to provide the **NU-COAT M16-H-K High Tack White Vinyl** and the **NU-COAT M25-P-K Matt Laminate**

for all the projects. Director Gary Boad explains: "The NU-COAT M16-H-K High Tack White Vinyl is a high-opacity, high-grab print vinyl, ideal for various applications such as signage, displays, and graphics. It offers excellent durability and adhesion."

"The M25 Laminate provides added protection and longevity to printed materials, enhancing their resilience, and together, these products ensure high-quality, long-lasting results for our projects."

And working with All Print Supplies was "consistently positive" in Gary's opinion - top of the class, you might say!

“

"All Print Supplies excel in every department, from sales to accounts and delivery. Without fail, they go the extra mile every single time, demonstrating their dedication to exceptional service."

”

Gary Boad, Director at Cubed Creative

Creating an impression that enthruses pupils and staff alike, Cubed Creative's wall art is also resilient and durable, thanks to the choice of materials sourced from All Print Supplies.

Whites remain white, and colours stay bright! The wall art stands up well to atmospheric challenges and guarantees the educational message will be clear for many years to come.
