

CASE STUDY:

Fullcircle – An Expert’s Verdict on Our Vehicle Wrap

Fullcircle delivers expert vinyl installation, training, and consultancy, and specialises in vehicle wrapping. With 20 years’ industry experience behind it, it’s a fully mobile service for premier wrap shops and private clients across the South-East of England.

When founder Nathan Squire wraps a vehicle, he insists on the best possible materials (understandably – as some of the vehicles can be worth millions!)

For this reason, Nathan trials wrap material on his own testbed vehicles first – and when he tested the **Fedrigoni C50 Ultimate Slide & Tack** wrap from All Print Supplies recently, he really put it through its paces.

“I tested it on a double van recess and wing mirror” he explains, “and I really pulled it about and overstretched it. But nothing moved and nothing failed. I’d happily put it on a customer’s car right now.”

His current project is a full Fedrigoni wrap for his own classic Ford Sierra. All Print Supplies both provided and printed the wrap, featuring a period race design created by Nathan. “It’s perfect. I’m extremely happy,” he says, “it’s one of the best products I’ve used in 20 years in this business.”

“The service is exceptional. One time at 5 p.m. on a Friday, I ran out of scalpel blades and my account manager drove to London to bring me some!”

“If they can help at all, they will.”

“

“Working with All Print Supplies is excellent - which is why I’ve been doing it for the last 15 years.”

”

Nathan Squire, Founder at Fullcircle
