

## CASE STUDY:

### NE Display: Inspiring Young Minds with Stunning Window Graphics

North Shields-based NE Display has built a reputation over nearly two decades for high-quality large format printing, signage, and promotional display materials. Run by Ang Tuplin and Clarissa Wilson, NE Display offers end-to-end services from design to installation, producing impactful visual solutions across the North East for a broad client base.

When Epinay Business & Enterprise School in South Shields sought an engaging and inspirational installation for its large canteen window, NE Display stepped in with a vibrant, visually powerful solution - using **DigiPRINT's ultra-clear printable vinyl DS3054 P** supplied by All Print Supplies.

This special educational needs (SEN) school, had a clear mission: to motivate and uplift its students through bold and inclusive imagery. NE Display created and installed a 20m<sup>2</sup> display made up of ten towering panels featuring artwork that celebrated children with learning difficulties in diverse, empowering environments.

**DigiPRINT DS3054 P** is a permanent 80µ ultra-clear gloss monomeric vinyl, specifically designed for high-quality

window graphics where a 'no vinyl' look is preferred and it delivered exactly what was needed: vivid colours, outstanding optical clarity, and easy application on glass.

As Ang explains "I needed something punchier and more vibrant than frosted options - and nothing else out there compared," says Ang. "It was a dream to work with, and the clarity and printability were unbeatable."

Ang also highlighted the support she received from All Print Supplies: "We have used APS for the past six years and the service is always spot on. I'm totally sold on APS's quality and reliability - not just in product, but in people too."

All Print Supplies

"This was the first time we'd used DS3054 P. Caroline at APS recommended it during a training course, and I'm so glad she did. The client is delighted!"

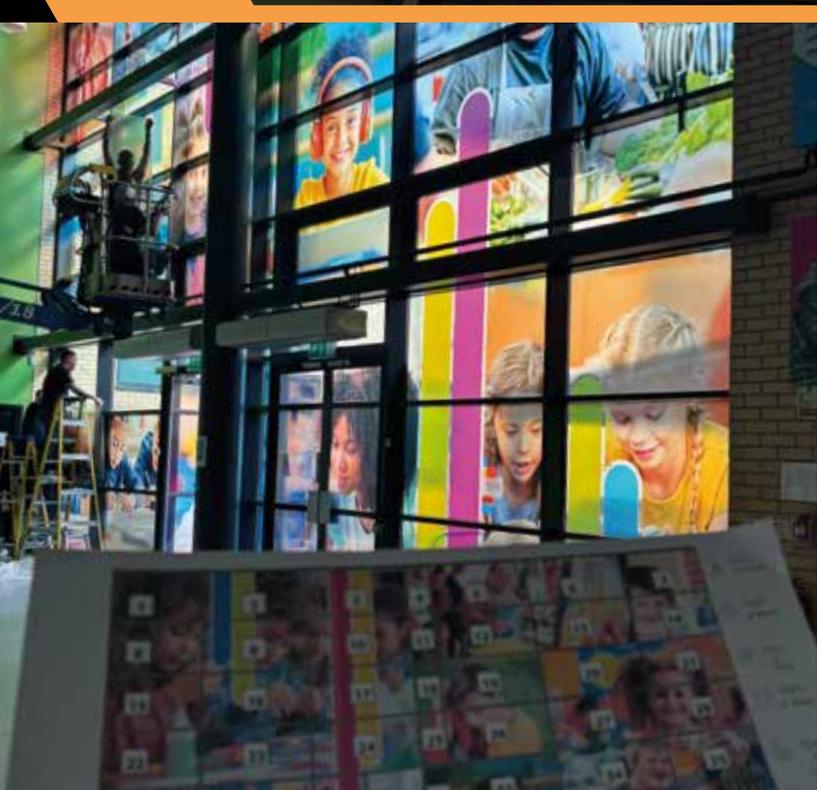

Ang Tuplin, Owner at NE Display
