

The Renovo logo features the word "RENOVO" in a bold, black, sans-serif font. A white diagonal line cuts through the letters from the top-left to the bottom-right. Below the main text, the words "MAINTENANCE" and "REFURBISHMENT" are written in a smaller, lighter font, separated by a vertical line.

RENOVO

CASE STUDY:

Renovo: Transforming Educational Spaces with Architectural Films

Renovo is a surface solutions specialist known for delivering quality, efficiency, and innovation in refurbishment projects. Based in East Sussex, the business has evolved from its roots in signage, print, and vehicle wrapping into a trusted partner for large-scale architectural surface transformations across sectors including education, healthcare, hospitality and commercial environments.

With a skilled in-house team and a focus on sustainable refurbishment, Renovo offers a cost-effective alternative to traditional replacement, bringing tired interiors back to life with minimal disruption. Their ability to combine speed, quality and compliance has made them a go-to contractor for schools and local authorities seeking fast, modern upgrades.

MODERNISING SCHOOL ENVIRONMENTS

Architectural films have become central to Renovo's offering, enabling them to transform educational spaces quickly, sustainably and with minimal disruption.

- At St Richard's Catholic School in Bexhill-on-Sea, the team tackled severe heat issues by installing **solar control film** supplied by All Print Supplies and specialist support from SPACE Architectural Interiors. This helped regulate indoor temperatures across the building, creating a more comfortable learning environment for staff and students.
- Meanwhile, at Stafford Primary School, Renovo refurbished 32 outdated burgundy doors using **LX Hausys RS 170 white film** from All Print Supplies, facilitated by SPACE Architectural Interiors. Completed over two phases, the project gave the school a clean, modern look without the cost or waste of full replacement.

"It was plain sailing — no access issues, no product issues, and the finish was spot on. The LX film is great to work with; it takes heat well and gives a clean, professional result," says Adam Day, Owner at Renovo.

RELIABLE SUPPLY AND RESPONSIVE SERVICE

Renovo has been working with All Print Supplies and SPACE for over three years and, for Adam, the strength of the relationship lies in their reliability, service and responsiveness.

“If they say they will do something, they do it. All Print Supplies and SPACE go above and beyond and the proof is in the pudding. Other suppliers have let us down on samples and fire rating, but they never have.”

Regular stock updates and clear communication allow Renovo to plan ahead and keep projects on schedule. This level of service is particularly important when working to tight school refurbishment deadlines.

SAMPLE SUPPORT THAT SECURES WORK

Support from All Print Supplies and SPACE has also played a direct role in helping Renovo win new contracts. For both school projects, material samples were supplied, enabling the Renovo team to install demonstration doors on site. This gave clients the opportunity to see and feel the finish first-hand, helping secure approvals and move projects forward.

“No other supplier has supported us in this way. It’s made a real difference in winning work.”

BEFORE

AFTER

“ ”

“All Print Supplies and SPACE are on the ball when it comes to knowing what’s available and how soon we can have it. If a film was cheaper from someone else, I would stay with All Print Supplies and SPACE because the reliability is worth its weight in gold.”

Adam Day
Owner, Renovo
