

CASE STUDY:

From Dorset and Yorkshire to your TV screens:
transformative Mactac projects

Signography Print is a Bridport-based graphic marketing specialist, producing signs, PVC banners, vehicle graphics and wraps, and art prints, to create exceptional displays. Working both independently and in collaboration with promotional items supplier Kustom Vinyl Decals, they have delivered several striking projects recently using the same Mactac materials sourced from All Print Supplies.

Two of Signography's projects brought a touch of colour and vibrancy to the ground at Wakefield Trinity RLFC, a Super League club with a loyal Yorkshire following. Using **Mactac JT9500 WG-BFG vinyl panels**, printed in-house, the firm wrapped two shipping containers to transform them into the Big Bopper Bar and the Madri Bar - eye-catching watering holes for thirsty fans.

But the company also brought their expertise right into our living rooms when, in collaboration with Kustom Vinyl Decals, it wrapped a Mercedes Vito van (two identical ones, in fact - one for filming and the other for stunt

scenes) for the groundbreaking Netflix series Adolescence.

The collaboration also produced window graphics and police car badges for the same series.

Ben Francis, Director at Signography, praises the service he received from the All Print Supplies team, describing them as "always forthcoming in recommending the best materials."

A success story worthy of the small screen!

All Print Supplies

“

The Mactac product we used is our go-to material for most vinyl applications. The product is flawless! It prints well, is easy to apply, and the longevity it offers is outstanding.”

”

Ben Francis, Director at Signography Print

The Signography Print/Kustom Vinyl Decals van wrap appeared in the Netflix series *Adolescence*, along with their window graphics and police car badges.

Mactac at its most colourful - two alluring places to get a pint at Wakefield Trinity RLFC, the Madri Bar (above) and the Big Bopper Bar (below).
