

Your Recycling Solution

TOTAL WASTE MANAGEMENT SOLUTION

We partner with industry experts and leveraging innovative strategies, the scheme offers businesses a structured framework to review and optimise their waste systems.

Through a rigorous evaluation process, businesses gain valuable insights into their waste generation patterns and receive personalised recommendations for improvement.

ALL BRANDS COLLECTED

By working with other industry Champions, we do not discriminate when it comes to material brands. The accreditation maximises what waste a business can dispose of and reduces the need for extra time spent segregating materials before collection."

100% ACCOUNTABILITY

Evidence of where the waste has been disposed will be provided on a regular basis.

On request detailed sustainability reports can be provided for specific projects.

HONEST IMPARTIAL ADVICE

As a Globally recognised Non-For-Profit Association, FESPA UK provide an impartial waste scheme, that aims to dispose of graphics waste by the most responsible methods. Whilst providing accountability, clear guidance and education.

OVERVIEW

Under our accreditation we have created working solutions for numerous materials, including:

- Polyester Fabrics
- Label Waste
- PVC Banner
- Rigid PVC (Foamboard)
- Rigid Polypropylenes
- Acrylic
- PETg
- Aluminium Composite Material
- Polycarbonate
- Siliconized Papers

FACE & ALL BACKING PAPERS

PVC & Non PVC Self-Adhesive face materials & all grades of siliconised backing papers, can be recycled.

Face materials need to be segregated into PVC & Non PVC, but no segregation of backing paper material is needed.
