

**MAKING A MATERIAL  
DIFFERENCE**

## PROFESSIONAL COLOUR. EVERYDAY PERFORMANCE.

Twenty carefully selected colours,  
dependable performance and  
proven polymeric construction.

Developed by NU-COAT for professional signmakers, Nu-Sign 'P' Series is designed for vehicle markings, window graphics, general signage and promotional applications.

The range combines a high-performance 100% polymeric face film with a clear PermPLUS UV polyacrylate adhesive.

Available in 20 carefully selected colours, with high stock availability and consistent supply through APS.

### Apply With Confidence

Suitable for wet application without whitening—even at temperatures down towards 0°C.

### Convert With Confidence

Reliable cutting with fast and clean weeding. White vinyls feature a blue contrast liner for easier identification and weeding.

### Specify With Confidence

The 100% polymeric construction provides excellent dimensional stability for permanent graphics on flat and simple-curved surfaces.

### Choose With Confidence

20 colours provide a focused range for everyday signage, branding and promotional work.
