

Dichroic Window Films

SCAN ME

DigiPRINT

Infusing rooms with vibrant energy and colour.

Experience the magic of dichroic window films, turning ordinary windows into captivating portals of beauty.

These films exhibit a stunning iridescent effect as they reflect light.

Whether it's at the office, or in a commercial setting, these two films enhance the atmosphere, leaving viewers spellbound.

- Iridescent effect
- Removable adhesive
- Easy to apply
- UV printable

BD100 Fire and RD100 Freeze

Our dichroic films feature 100µ polyester face films with a solvent based adhesive, guarantee exceptional dimensional stability and are easy to wet-apply to windows and other smooth, clean surfaces.

The UV printability of our dichroic films unlocks a realm of custom design possibilities, inviting you to explore your creative ideas without restraint.

Available in 2 finishes:
