

TransTape TT60

Medium tack application paper

Product description

Paper - A high wet strength impregnated translucent paper designed specifically for pre-mask, pre-space and application tape requirements.

Adhesive - A natural rubber based adhesive with medium tack levels, which achieves consistent transfer of cut vinyl graphics. The adhesive system is clean tearing and does not suffer from 'stringing'.

Typical uses

For all applications where it's important to see application position of the graphics.

Suitable for all graphics.

Pre-mask for printed vinyl graphics.

All purpose transfer and pre-space tape.

Protection tape for digitally printed graphics.

Shelf life

6 months when stored at 15°C to 25°C and 50% RH.

Physical properties (Average Values)

Tests made at 23°C and 50%RH unless otherwise stated

Paper type: Wet strength impregnated translucent paper

Overall thickness: 100 microns

Adhesive data: 20 mins: 2-3 N/25mm

Application Data

Rolls should be stored on end in original packaging away from strong heat and light.

All technical information is based on manufacturer's claims and is believed to be true at time of print but does not constitute a warranty. Due to the complexity of end use the purchaser should carefully consider the fitness and performance of the product for their own application or use. We reserve the right to make changes to specifications without prior notice.
